

DASHCAM ACCESSORY

BD2000IR

FleetCam Outdoor AHD Camera — Rear/Outside-Mounted Accessory Camera

The FleetCam™ 2.0 Outside Cam, typically mounted to the rear of the vehicle, is built to weather the elements. Dust-tight and waterproof with a sun shield and anti-vibration feature, it gets the shot even in the toughest conditions. The Outside Cam gives you a clear image by automatically adjusting the color and shutter speed while using infrared sensors to record at night.

IP66 Waterproof

720P AHD

2.8mm Lens

IR Night Vision

FEATURES & BENEFITS

- ✓ Waterproof and dust-tight construction
- ✓ Built to withstand harsh weather conditions
- ✓ Easy to install with lockable mounting angles
- ✓ Anti-vibration design for smooth, stable recording
- ✓ Infrared sensors deliver clear night vision

APPLICATIONS

Rear-View Fleet Monitoring

Reversing / Backing Assistance

Harsh-Weather Outdoor Mounting

Night Vision Recording

BD2000IR — Full Technical Specifications

CAMERA SPECIFICATION		CAMERA SPECIFICATION (CONT.)	
CMOS	1/3" 1.3M pixel CMOS	Color to Black	External synchronously control
Resolution	1280 × 720	Gamma Correction	0.45 (default)
Format	NTSC	Video Output	AHD coaxial HD output, 4-pin aviation cable
Minimum Illumination	0 lux @ F1.2	Power	130mA/DC12V ±5%
IR Distance	15-30 feet	Consumption (Max.)	150mA/DC12V ±10mA
Sync System	Internal synchronously	Working Temperature	-4°F ~ 122°F
S/N	≥50dB	Weight	380g (~0.84 lbs)
Lens	2.8mm	White Balance Mode	Auto
Electronic Shutter	Auto		

CONNECTOR REFERENCE (RS765-4)	
Pin 1	12VDC (+)
Pin 2	12V GND (-)
Pin 3	NC
Pin 4	AHD Video
